**Subject:** EPA Request for Additional GIS Layers

Chip and Kristine –

The requested GIS files (Figure 2.1-5 Existing Debris within the Site, Figure 5.6-2 Areas of Relatively High and Low Propwash Potential, and Appendix Ha Figure 3.2-55 Groundwater Discharge Zones) are best shared as a .zip Geodatabase file. Recognizing that the EPA system blocks .zip files, there are a few options for sending these files.

1. Send the file to you directly by changing .zip to .zap
2. Send the file to Todd King at CDM assuming CDM's system will accept .zip files
3. Upload the file to an ftp site
4. Burn to a CD and send in the mail.

Please let me know which you prefer.

Thanks!
